Imagine if water tasted like fruit – you'd be drinking puddles, having showers with your mouth open and running outside with eight pint glasses every time it rained. The thing is, water currently tastes like water, which is lovely and refreshing but not what you'd call a taste explosion. So, Innocent mixed it with blackcurrant and raspberry juice to give it some extra tastiness. And they also put it into a bottle so it's a lot more convenient than having to stick a straw into a pothole.
